Professional Summary

As a software engineer, I have a strong background in building scalable web applications using modern technologies like JavaScript, React, and Node.js. I have a proven track record of collaborating with cross-functional teams to deliver high-quality products on time. My experience includes working on full-stack development, database optimization, and cloud deployment. I am passionate about learning new technologies and solving complex problems. I have a strong foundation in computer science and a commitment to continuous improvement.

Education

Dalhousie University (*Bachelor of Applied Computer Science, 3.91 GPA*)

3 (Top academic standing)

Nova Scotia Community College (*Diploma in IT Programming*)

Experience

Software Engineer – VGen (Oct 2024 – Present)

Developed and maintained a large-scale web application serving over 280,000+ users. Collaborated with the product team to identify and implement new features. Optimized database queries, resulting in a 50,000+ improvement in page load times. Worked closely with the DevOps team to ensure smooth deployments and system uptime.

Full-Stack Developer – Modest Tree (May 2023 – June 2024)

Designed and built a full-stack web application for a local business. Utilized React for the frontend and Node.js for the backend. Implemented a robust authentication system and integrated a third-party API. Collaborated with the marketing team to launch the application and track user engagement. Received positive feedback from clients and users.

Data Steward – Clearwater Seafoods LP (May 2022 – Aug 2022, Jun 2019 – Jan 2021)

2+ #, 100%
A

Software Developer – Garvin-Allen Solutions Limited (May 2021 – Aug 2021)

A

Programming Co-op – Clearwater Seafoods LP (May 2019 – June 2019)

A

Technical Skills

Programming Languages: #, /
Frameworks: A
Tools & Technologies: A, A

Projects

Coverly (Vue, Node.js, Express, TypeScript)
95%.

The Green Card (MERN Stack – Technical Lead)
